INDUSTRY REVIEWS

" I love her music, especially her covers of Sarah Vaughn, Nancy Wilson and Billie Holiday. Sabrina has gigged with us-- The Jazz Generation band of Sacramento—and performed in concert with us for an annual Sacramento Women of Color Day/Diversity Event."

"She was presented with an award as an outstanding singer and for her leadership in African Americans for Balanced Health by the International Association for Women of Color Day. Sabrina is a popular and talented entertainer with a beautiful voice."

Suzanne Brooks, Founder/CEO of
Creative Concepts Systems Vocalist/Bandleader
Founder, The Jazz Generation Band, Sacramento.

"Sabrina has been a client of mine since 1986, and has grown with me in the process of recording, performances, and has shown the public that she has the drive to promote her musical career to all levels in the music industry. She's has also shown leadership in putting together her own shows, and has made her first CD project back in 2019 that I had the pleasure of producing for her."

"I am looking forward to having more projects to include working with Sabrina on original works in the following years. Sabrina comes highly recommended for any social events you might have within your organization, and I would suggest getting her before someone else does. You will be missing out if you don't."
